

Celebrating A Year Without A **STROKE**

“When they say
there is a risk of
stroke, that’s real
and that stroke can
change your life”

—Randall Munson, husband of
Sharon Munson who suffered
an AFib-related stroke

The risk of stroke from atrial fibrillation (AFib) is real, and can quickly change your life. Watch the real stories of people who have experienced and seen first-hand how serious AFib-related strokes can be. They all share the mission of educating patients and their loved ones about stroke risk and prevention, so that they can Celebrate a Year Without a Stroke.
